Issued: February 10, 2021  
Fire School Covid Policy Addendum 1

Temperature screening will change and follow the following guidelines here at York County Fire School.

ALL Students, Staff and Visitors will perform self-temperature screening and log the recorded temperature in the provided log book.

There will be a table set up right inside the Administrative Building where there will be 2 temperature taking devices, hand sanitizer, equipment sanitizer and the log book.

It is recommended that you use hand sanitizer and then sanitize the temperature device and then take your temperature. After that is done, log the results in the log book and then proceed to your classroom.

You are only required to take your temperature one time for the day. If you have any Covid symptoms we ask that you not come inside the building and call the school or the instructor in charge of your training for the day.

If any Student, Instructor, or Staff presents any COVID symptoms while at the York County Fire School, they shall notify staff and immediately leave the premise.

If you have any questions, please feel free to contact me.

Thank you.

John Livingston  
Administrator  
York County Fire School
